

# Blow Ya Mind

Ruben Studdard

Girl, you been on my mind all day  
And I been thinking of what I was gonna say  
When you got here, um, I want you to relax  
Let your hair down cause tonight is the night  
For me to blow your mind

It's time to relax, it's time to unwind  
Whatever's on your mind, girl, leave it outside, outside  
Tell me your fantasy cause I want you to be free to explore  
There's so much more if you let me

If you let me blow your mind tonight  
Baby, it'll be okay if you let go with me  
Baby, just let me take time control tonight  
Take ya body to another place, girl  
Somewhere that you can't explain, girl

I know that you've had your reservations  
Do ya wanna be with me and your speculations  
Of the things I did in the past  
But I wanna clear your mind out  
Leave all those things behind  
Now I'm behind, girl, I want to make you feel good

Let your hair down, baby  
Take your clothes off  
It'll be alright  
If you let me let me

If you let me blow your mind tonight  
Baby, it'll be okay if you let go with me  
Baby, just let me take time control tonight  
Take ya body to another place, girl  
Somewhere that you can't explain, girl

Now I want you all over me  
Do it on the table, freaking in the shower  
Have you in the kitchen, over by the window  
Let me play with your body  
Starting at your navel all the way to your toes  
Girl, I want you to reach your peak

I wanna blow your mind

Let me blow your mind tonight  
Blow your mind tonight, girl  
Take you to a fantasy  
Somewhere that you've never seen, yeah  
Baby, just let me take control tonight  
I wanna love ya from your toes to your back to your navel  
Let me lay with you, let me play with you  
Satisfy your every need, let me love on you, baby  
Baby, just let me control, oh you look so good girl
