

I Need An Angel

Ruben Studdard

I've run out of answers I've run out of time
And im so confused that im loosing my mind
Its gonna take a miracle to help me this time
Im traveling a road that has not one sign

Help me...Have mercy on me...Set my soul free...and let the bell in my
heart ring....oooo

This is my cry, hey, this is my plea, ya see

[chorus]

I need an angel, Im callin an angel, send me an angel down [2x's]

[Verse 2]

Im carryin a load thats too heavy for me
Have no where to go so im down on my knee
Im tryin to see the forest but theres this one tree
Cant understand why im sinking so deep

Help me (Help Me Help Me) have mercy on me
(Wont you have mercy on me) Set my soul free, and let the bell in my
heart ring

This is my cry, this is my plea

[chorus]

I need an angel (I need an angel) Im calling an angel, send me an ang
el (Send it on down)

Here Me Now

I need an angel (I need an angel) Im calling an angel, send me an ang
el (Send it on down)

Oooh something inside me telling me the morning will come (Morning wi
ll Come) Yes it will
Oooh sometimes its hard to face the truth so we run (We Run)
God if you care at all please dont let me fall by the wayside (Oh No)
Please be my guide, would you light my path...
Take Me, Shape Me, Mold Me, Change Me, Teach Me, Fill Me, Save Me

I need an angel (I need an angel) Im calling an angel, send me an ang
el (Send it on down)

I need an angel (I need an angel) Im calling an angel, send me an ang
el (Send it on down)

I know its gotta be some kinda angel out there for me

Send a angel down right now Send a angel down right now
