

# Together

Ruben Studdard

Since the day that we met girl  
I ain't never had anyone make me feel this way  
And my heart is sure it wants to be with you  
Wanna to give you the whole world, oh  
If you make the promise to me, I'm gonna stay  
Without you guiding me, I'm lost and so confused

What will it take to show you I'll be by your side  
Girl I got you and I want to give you what you never had  
Girl everyday I hope to make you part of my life  
Cause you love me and I love you  
Girl your love is where it's at  
Ohhh...

I'm gonna be the love that's gonna last  
And be the one that got your back  
Ain't nothing never that bad that we would be together  
And though we both made our mistakes  
And some we never wish we made  
But we'll be okay if we just stay together

Oooh..

I know he left you stranded  
And you paid the price when you messed up your life oh  
Girl I know you're so afraid  
But I can't write the wrongs she did  
I know you saw the lipstick on my window  
And wonder'n how many girl's been to my home  
I've done my share of playing games  
But for you I given up my ways

What will it take to show you I'll be by your side  
Girl I got you and I want to give you what you never had  
Girl everyday I hope to make you a part of my life  
Cause you love me and I love you  
Girl your love is where it's at

Ohhh...

I'm gonna be the love that's gonna last  
And be the one that got your back  
Ain't nothing never that bad that we would be together  
And though we both made our mistakes  
And some we never wish we made  
But we'll be okay if we just stay together

Baby you're the one I've waited for  
Because you gave me what I need and more  
Girl its clear that we are meant to be  
Together,  
We should be together  
Eternally  
Ohhh...

Girl I'm gonna be

I'm gonna be the love that's gonna last  
And be the one that got your back  
Ain't nothing never that bad that we would be together  
And though we both made our mistakes  
And some we never wish we made  
But we'll be okay if we just stay together

I'm gonna be the love that's gonna last  
And be the one that got your back  
Ain't nothing never that bad that we would be together  
And though we both made our mistakes  
And some we never wish we made  
But we'll be okay if we just stay together
