

**PETA**

**Rucka Rucka Ali**

If I could buy me a dog and turn him to a rug  
I would already have me one dead on the floor  
PETA would find where I live  
They'd kill my wife and kid  
So it's probably a good thing  
I ain't doin' that shit  
PETAs are all just gangsters  
With hard-ons for nature  
And just 'cause THEY got molested  
We all shouldn't eat meat  
They have a final solution  
Just like Hitler's Jew shit  
They wanna kill everyone that's not a pussy

1939

Ronald McDonald tells children:

"Hamburgers grow in a burger patch and love to be eaten"

Billions of animals are marched to their slaughter in a Holocaust of Biblical proportions

These are the inglorious faggots

The People with an Erection for reTarded Animals

They got vaginas

Between all their feet

So they always get mad when they smell fish

They would have cancer from not eating meat

But they get protein from swallowing jizz

If they catch you

With pork in your mouth

Or if you're running a test on chimpanzees

To learn how make-up

Will look on their face

Them PETAs will start a fire

They'll burn your house to the ground

If I could buy me a dog and make him bite someone

I would already have him eat a couple vegans

But PETAs have lots of friends

Like tigers and lions

So them animals would eat up my dog and then me

PETAs are kind of racist

They think that Kanye West

Should NOT be allowed to wear some fur on his feet

But if a nigga don't wear shit that is real expensive

He'd probably get shot by some other MCs

They always act like they love animals

But they really just don't like human beings 'cause

One of their neighbors or uncles fondled their junk

So they blame it on the rest of us (I hate you)

They're mad 'cause

Some chickens got mirked

For us to get us some lunch at KFC

But with some bacon

The shit's kind of good  
So if you bitches won't try it get out the damn restaurant

There's a country where they won't  
Eat the sacred cow  
I think it's called Indiana  
They kill their baby girls  
Because they like little boys!

If I could buy me a dog and turn him to a rug  
I would already have me one dead on the floor  
PETA would find where I live  
They'd kill my wife and kid  
So it's probably a good thing  
I ain't doin' that shit  
PETAs are all just gangsters  
With hard-ons for nature  
And just 'cause THEY got molested  
We all shouldn't eat meat  
They have a final solution  
Just like Hitler's Jew shit  
They wanna kill everyone that's not a pussy

And on the faggots march  
Protecting all that is alive  
Accompanied by the Hollywood Vagitarrians:  
Paul McCartney  
Alicia Silverstone  
probably Lindsay Lohan
