

# Save The World

Rufio

You pull me by the arm  
Tell me what to believe  
You tell me there is only one way  
One way to see  
Whatever faith you choose  
May not be for me  
How can I be saved  
While being forced to believe  
Believe.

Lets save the world  
One by one  
Well make them believe  
Conform if they must  
Dont question the thought  
Its whats always been told  
Well make them believe  
Lets save the world

So spread the word  
And tell me of good news  
That if I act right  
I can be like you  
Well to live is to learn  
And think for yourself  
And ill do just that  
I dont need your help
