

Set It Off

Rufio

One day they set it off
Blowing confusion into our minds
Some say we'll never see
The beauty within our hearts

So help us fight this war
See past your thoughts before
We're all taking battle scars
Just don't you go....

Things never change
Without the strength to move on
What we will be
Depends on what we believe
We'll set it off

We're starting a different life
Confessing we haven't begun to live
Leaving your past behind
You'll follow your heart

What will we do when all is gone?
And what will we say?
Will we ever learn?
What will we do when all is gone?
And what will we say?
