

# Stop Whining

Rufio

so close to  
no one that  
you care for  
cause you dont care  
its not worth it  
cant think straight  
so take your pill  
and stop whining  
so close your eyes  
and think of your lies  
behind the wall  
of innocence lost  
think of family  
and think of your friends  
think about all these thoughts will be gone when your dead dead

always feel discomfort  
always feel alone well who cares about it  
cant find a  
good reason  
to stay here  
so stop whining  
so close your eyes  
and think of your lies  
behind the wall  
of innocence lost  
think of family  
and think of your friends  
think about all these thoughts will be gone

if you really did  
want to end your life  
you'd be gone by now  
its just a cop out  
you cant pull through  
you dont know what to do  
you analyze it  
but you cant see straight  
you dont know what to think  
dont blaim your shit on me  
its getting older these days  
just keep on passing by  
please be alone

so close your eyes  
and think of your lies  
behind the wall innocence lost  
think of family  
and think of your friends  
think about all these thoughts will be gone when your dead, dead
