

Why Wait?

Rufio

Growing old, and living for
the moment, you're
searching for something
cannot find, the truth inside
will leave you all, that you're living for

thinking love is gone, its gone

why wait for you to come home
why search for answers to nothing
dont come back crying for help
why wait for life to come

growing old, and living for
the moment, you're
searching for something
cannot find, the truth inside
will leave you all, that you're living for

thinking love is gone, its gone

why wait for you to come home
why search for answers to nothing
dont come back crying for help
why wait for life to come

think back, shocking, believe, its me (x4)

why wait for you to come home
why search for answers to nothing
dont come back crying for help
why wait for life to come
