

## Greek Song

Rufus Wainwright

You who were born with the sun above your shoulders  
You turn me on you turn me on  
You have to know  
You who were born where the sun she keeps her distance  
You turn me on you turn me on  
But so does she

You who were born there where beauty is existence  
You turn me on you turn me  
Your body heals my soul

You who were born where you shiver and you shudder  
You turn me on the girl is gone so come on  
Let's go

All the pearls of China  
Fade astride a volta  
Don't sew beelines to anybody's hide  
Save your poison for a lover who is on your side

One way is Rome and the other way is Mecca  
On either side on either side  
Of our motorbike  
One way is home and the other way is papa  
On either side on either side and  
Prepared to strike

When I get back I will bleed after my beating  
Don't leave me here don't leave me here  
I'm scared to death

All the pearls of China  
Fade astride a volta  
Don't sew beelines to anybody's hide  
Save your poison for a lover who is on your side

All the pearls of China  
Fade astride a volta  
Don't sew beelines to anybody's hide  
Save your poison for a lover who is on your side
