

Vibrate

Rufus Wainwright

My phone's on vibrate for you
Electroclash is karioke too
I try to dance Britney Spears
I guess I'm getting on in years

My phone's on vibrate for you
God knows what all these new drugs do
I guess to have no more fears
But still I always end up in tears

My phone's on vibrate for you
But still I never ever feel from you
Pinocchio's now a boy
Who wants to turn back into a toy

So call me
Call me in the morning
Call me in the night
So call me
Call me anytime you like

My phone's on vibrate for you
For you
