

Circles

Rufus

Oh, my love has no beginning
And my love it has no end
Always plus and always minus
It never breaks, it never bends
You can shape it any way you want
You can turn it left or right
Cause my love it comes in circles
And it comes in black and white

And the circle remains unbroken
And the circle remains unbroken

Hope my love don't fade away
(in my soul)
Hope my love don't fade away
(I don't want it to)
Hope my love don't fade away
(In my soul)
Hope my love don't fade away

Circles have ups and downs
Don't let them turn you 'round

Round and round
Round and round
Circles, circles
Don't let them bring you down
Round and round
Round and round

There is ice, there's fire
Always winter, always spring
Cause my love is like a zero
It is nothing and everything
Oh, you know it's like the universe
No matter how big or small
It goes on and on forever
It never drops, it never falls

And forever remains unbroken
And forever remains unbroken
