Heaven Bound

Darlin' there's a thing or two I want to take the time to say Every moment here with you Puts heaven in my day

I'm mystified by the smile that blossoms on your face And the magic seems to lift me to a cloud where we embrace I don't have to dream no more, no Now I believe in miracles Your love turned my world around

Heaven bound Heaven bound Heaven bound

Oh, I simply must confess I'm glad to be a girl You've got to be an angel Cause you put heaven in my world

Your shadow is my tropic sun And it's summer all year long Your presence is my paradise

How could anything go wrong

Now I'm absolutely sure That you're all I've been living for, yeah Your love turned my world around

Heaven bound Heaven

I'm in, I'm in heaven
I'm in, I'm in heaven
I'm in, I'm in heaven

Every time I'm near you my heart just won't keep still The closer that I get to you, the better that I feel I don't have to dream no more, no, no

Now you're all I'm living for, yeah Cause your love turned my world around Heaven bound
