

Hold On Me

Rufus

Now and then I think about
How powerful the ...we share
Regrets I have to bear
I'm not showing you baby
How I fell for you
If I could rewind
The hands of time
I know in my heart
That you would be mine
I thought that days have passed away
My love will fade is here to stay

You got a hold on me
Meant to be, will we be
Talk to me baby cause
Walk with me oh

Walk by and took a glance
And saw that it was you
I know that this was my second chance
To show you baby
How I feel for you
That stars align and this was my time
I put my pride aside and ask if you have the time
To take a walk with me
And talk with me
Then I knew I should've made a move
But I played a fool

Now you got a hold on me
Meant to be, will we be
Talk to me baby cause
Walk with me oh

Met her back then but we chillin right now
Tried to let it go but she really hold it down
Feeling kind of tempted whenever she ain't around
To get with these other girls to me ain't really sound
Like a bad idea, bad idea
But she bad as hell so my bed stay clear
We always want what we can't have
But once we got it we just want what we last at
Right, uh? Just a dog in the doghouse
Brought the DMX I gotta let my dog out
But what's my wish bone done it what I wish on
Ain't' exactly what I thought that's when my wish jaw
You got a hold on moi, when I hold on you
I hold on hard
No ain't really one to say but I'm feeling kind of lonely so
I figure that it's ok if

You got a hold on me
Cause what we have is
Meant to be, will we be
Talk to me baby cause
Walk with me oh
Hold on me

Cause what we have is
Meant to be, will we be
Talk to me baby cause
Walk with me oh
Hold on me
Cause what we have is
Meant to be, will we be
Talk to me baby cause
Walk with me oh
