

Paris Collides

Rufus

I'm formin circles in my mind
Waitin for the storm to come
I'm waiting for the air to paralyse
I'm chasin shadows every night
Waiting for a call to come
I'm waiting for an answer on the run
I'm formin circles in my mind
Waitin for the storm to come
I'm waiting for the air to paralyse

Paris collides
Feel the light
Of your love across the horizon
Paris collides
Feel the light
Of your love across the horizon

I'm formin circles in my mind
Waitin for the storm to come
I'm waiting for the air to paralyse

Paris collides (I'm formin circles in my mind)
Feel the light (waitin for the storm to come)
Of your love across the horizon (I'm waiting for the air to paralyse)
