## **Paris Collides**

I'm formin circles in my mind Waitin for the storm to come I'm waiting for the air to paralyse I'm chasin shadows every night Waiting for a call to come I'm waiting for an answer on the run I'm formin circles in my mind Waitin for the storm to come I'm waiting for the air to paralyse

Paris collides Feel the light Of your love across the horizon Paris collides Feel the light Of your love across the horizon

I'm formin circles in my mind
Waitin for the storm to come
I'm waiting for the air to paralyse

Paris collides (I'm formin circles in my mind) Feel the light (waitin for the storm to come) Of your love across the horizon (I'm waiting for the air to par alyse)

Rufus
