

Turn

Rufus

Turn, Turn, Turn
Turn, Turn, Turn
Turn, Turn, Turn

Bring on all the seasons
Repeat your earlier deeds
Show the children your face
Most of all teach them to...

Bring on all the colors
Don't let me forget for a moment
What i have to do
It's all so necessary for you to...

We will rehearse long and hard
For the big celebration
Spread the leaders among us
Like the heat's in the sun
Like the blue is in the sky
Like the peace in the eyes
Of the believers of GOD

Well if there's a will
There's a way
If we're strong it will pay
Look at the babies all around us
Like the moon in the night
Like a bird takin flight
Though this world is not right
We got to show them the way
