

# Baby Come Back To Bed

Rumer

Sometimes it's hard to believe  
We're still lying here after all these years  
Oh, baby, when you  
Start up a fight about nothing at all  
In the middle of the night

Ooh, don't tease me  
Don't say you'll leave me  
Don't tell me there's somewhere else  
In the world you would rather be  
But here with me  
Baby, come back to bed

You'll say  
When you're miles away that you miss me  
You can't live without me  
Baby, when we  
Argue like this I can't kiss you  
I just can't be without you

Ooh, don't tease me  
Don't say you'll leave me  
Don't tell me there's somewhere else  
In the world you would rather be  
But here with me  
Baby, come back to bed

You haven't really thought this through, have you?  
'Cause at the end of it all, I love you  
And you love me, too

(Instrumental)

You haven't really thought this through, have you?  
'Cause at the end of it all, I love you  
And you love me too, so...

Please don't tease me  
Don't say you'll leave me  
Don't tell me there's somewhere else  
In the world you would rather be  
But here with me  
Baby, come back to bed  
Baby, come back to bed
