

## It Could Be The First Day

Rumer

It could be the first day,  
When dreams are once again, the things that I would have to say  
,  
And with my next haze  
I'll learn the secrets of the games I've often had to play  
And when I've finally settled down  
To where my spirit can be found  
I will call on all my friends  
To say I've finally seen the end  
It could be the last day  
To give in all the places where I've often longed to stay  
It could be the last way  
To live among the things that I've often talked away  
And when I've finally realised  
Try my new day on for size  
I will call on all my friends  
To say I've finally seen my eyes  
It could be the first day  
Could could be the last day  
It could be the first day  
It could be the last day
