

Just For A Moment

Rumer

I've been up drinking
Biding my time
I'm loaded and wasted, all my desires
I've been using myself
Like only I care

But I understand
That you understand

'Cause just for a moment
I found my peace
Just for a moment
I came across me
Everything is on
There's nothing I'm missing
Just for a moment
I found my way

I've been up drinking
Biding my time
I'm loaded and wasted, all my desires
I've been using myself
Like only I care

But I understand
That you understand

'Cause just for a moment
I found my peace
Just for a moment
I came across me
Everything is on
There's nothing I'm missing
Just for a moment
I was complete

Just for a moment I was complete
