

Sing to Me

Run Kid Run

The song you sing
Orchestrates in perfect harmony
A verse that shines of brilliance
Whispers every moment subtly
You compose a symphony
Playing with notes that are in key
A sound that will not be forgot
Defining clarity so
Sing to me this melody
I'll let the rhythm take control
Sing to me this melody
A rhythm I have never known
A love song like no other one
Resounds on in time
Your design it lights up the distance
Signaling the noise to help me find
The words I can't ignore
So I'll sing along in a discord
Every measure, beat after beat
I'm slowly learning more so
Sing to me this melody
I'll let the rhythm take control
Sing to me this melody
A rhythm I have never known
This harmony rises up in me
Sing to me this melody
I'll let the rhythm take control
Sing to me this melody
A rhythm I have never known
