

War Is Over

Run Kid Run

Feel the tremble of your lips
The numbness in your fingertips
Your stomach turning inside out before it's over
Prisoner of war
Bound by the enemy
Smell of death brings you to your knees
A prayer whispered through shattered teeth
Let the chains release, you are free
The war is over
A battle is at hand
It's over
And we are still standing
War is over
A battle is at hand
It's over
Pull the trigger, trigger fast
Motionless lying in the grass
The trench is dug, the fight goes on
Shoot to kill, shoot to kill, till the rounds are gone
Cry out now
Brothers in arms
For the victory is ours
He's got the battle scars, battle scars
War is over
A battle is hand
It's over
And we are still standing
War is over
A battle is at hand
It's over
Carry on, carry on till morning comes
Carry on, carry on till morning comes
Carry on, carry on this way
War is over
A battle is hand
It's over
And we are still standing
War is over
A battle is at hand
It's over
And we are still standing
War is over (3x)
Carry on, carry on, on to the grave.
Strength to engage the battle that rages on
Carry on, carry on, on to the grave
Strength to engage, the battle that rages on
