The Black Wall

Runemagick

where is the ancient time carved in our eternal sign

i can't look thru the black wall
i can't touch the world beyond

memories color the emptiness but still the wall is black

i can't look thru the black wall
i can't touch the world beyond

where is the hungry flame that once painted the future ...only an empty shell of me remains

where is the eternal path that was meant for the future walk

i can't look thru the black wall
i can't touch the world beyond

the longing of the eternal fire grows stronger and stronger maybe one day the wall will fall and the flames will be together forever
