

# Now That I'm With You

Runner Runner

One  
One night with you  
And ya cut right thru  
It's killing me the way we connect

Stare  
Into your eyes  
It's no surprise  
With you I wanna risk it all  
I wanna risk it

Now that I'm with you  
The rest is a blur  
And I'm not so concerned  
Cuz now that you're right here  
It's so clear to me  
You are my everything  
It's amazing  
How ya take me  
Like we're alone at the top of the world  
Now that I'm with you  
It's so clear to me  
You are my everything

Crush  
This crush we feel  
Is so surreal  
Always there to break my fall  
With you  
All I need  
Is in front of me  
That's why I wanna risk it all  
I wanna risk it

Now that I'm with you  
The rest is a blur.  
And I'm not so concerned  
Cuz now that you're right here  
It's so clear to me  
You are everything  
It's amazing  
How ya take me  
Like we're alone on the top of the world  
Now that I'm with you  
It's so clear to me  
You are my everything

Now that I'm with you
