

Now That I'm With You

Runner Runner

One
One night with you
And ya cut right thru
It's killing me the way we connect

Stare
Into your eyes
It's no surprise
With you I wanna risk it all
I wanna risk it

Now that I'm with you
The rest is a blur
And I'm not so concerned
Cuz now that you're right here
It's so clear to me
You are my everything
It's amazing
How ya take me
Like we're alone at the top of the world
Now that I'm with you
It's so clear to me
You are my everything

Crush
This crush we feel
Is so surreal
Always there to break my fall
With you
All I need
Is in front of me
That's why I wanna risk it all
I wanna risk it

Now that I'm with you
The rest is a blur.
And I'm not so concerned
Cuz now that you're right here
It's so clear to me
You are everything
It's amazing
How ya take me
Like we're alone on the top of the world
Now that I'm with you
It's so clear to me
You are my everything

Now that I'm with you
