

Demonized

Running Wild

Modern man is going crazy, the whole world is going mad
The atmosphere is going hazy, they loot the world until its dead
The hell of war that rages on, the law of hate that's everywhere
Falling bombs a billion tons, plunge the world into despair
An evil, frightening nightmare that rule the world until the end
No change and no redemption will come until the evil's banned
Demonized, the machinery pollutes the air
Demonized, atomic bombs that sow despair
Politicians rule the lie, misuse the law to make their pile
Corruption whores of deepest dye, they ruin the world, but they keep
their smile
An evil, frightening nightmare that rule the world until the end
No change and no redemption will come until the evil's banned
Demonized, the machinery pollutes the air
Demonized, atomic bombs that sow despair
They invade the world with blinding rage
Revealing truth 'locked to a cage
War and death their evil seed
They hold their power on dirty deeds
[Solo]
Religious con-
men are catching souls, take the money that's rolling in
They cheat the world to save their goals, let children die while they
pray and sing
An evil, frightening nightmare that rule the world until the end
No change and no redemption will come until the evil's banned
Demonized, the machinery pollutes the air
Demonized, atomic bombs that sow despair
Demonized, corrupted men that pray the lie
Demonized, they save the money let people die
"That rotten bastards!"
