Raging Fire

Running Wild

Can you see the licking flame Waiting for its time
Its increasing energy
Preparing for the prime

Fed up with your boring prate
All senses gettin lost
Second to none our flame shall rouse
Just like a growing host

Raging Fire, burning down the walls Raging Fire, the rebellion force Raging Fire, all across the lands Raging Fire, fights in self defense

The anger grows on and on The young stand up and fight No more lies and censorship All oppressed stand tight

Knights of fortune and dictators They can't stand this heat We know what we want from life Beware we brake your greed

Raging Fire, burning down the walls Raging Fire, the rebellion force Raging Fire, all across the lands Raging Fire, fights in self defense

Wake up break the silence Come on join our league We must stand defiant To dethrone this breed
