

## Soul Vampires

Running Wild

Lifeforce's getting sucked out like our blood  
Vampires taking everything we've got  
They want us to live our lifes in fear  
They want us to build a perfect gear  
Vampires on our soul  
We want it, we need it  
We need revolt on holy ground  
Like thunder & lightning  
No chains or boundaries hold us down  
Playing games with lies and thoughts control  
Synchronicity their highest goal  
They transgress the boundaries of good taste  
Take a stand now, no more time to waste  
[2 x Chorus]
