Soul Vampires

Running Wild

Lifeforce's getting sucked out like our blood Vampires taking everything we've got They want us to live our lifes in fear They want us to build a perfect gear Vampires on our soul We want it, we need it We need revolt on holy ground Like thunder & lightning No chains or boundaries hold us down Playing games with lies and thoughts control Synchronicity their highest goal They transgress the boundaries of good taste Take a stand now, no more time to waste [2 x Chorus]
