Walpurgis Night

Running Wild

The streets are empty, all men are hidden home I wonder why, what's going on here? Someone shouts "stop boy" don't move on that way. Tonight they're hunting for someone, for someone just like you. I see fire, fire in the night Symbols are burning so bright It's the sign, the sign of women's fight All men are so frightened Thousand wild witches are srceaming through the night They are thrilling with their magic, tragic is the daughter's f ight Pointing at me with their fingers, saying "you are the sin" "Let's take him to our mountain to purify his soul" I see fire, fire in the night Symbols are burning so bright It's the sign, the sign of women's fight All men are so frightened [Solo] They bind me to a pole, naked they are beating with whips They torture to inquire, hate is on their lips Suddenly, the queen of the witches shouts "he is mine" Naked she comes to violate me, there is no harder love in town I see fire, fire in the night Symbols are burning so bright It's the sign, the sign of women's fight All men are so frightened [Solo]
