

The rifles are firing
The cracking of guns break the still
The march of the soldiers, no mercy
No thoughts and no will
They fall one by one
Their blood is shed without sense
Trapped in the spell of a nightmare
War & peace
You're walking just straight on the edge
War & peace
You're dying in war
But you even can't live in peace
You gun down your victim
And the devil is laughing in scorn
You're killing your brother
Cause he's wearing the wrong uniform
They fall one by one
Their blood is shed without sense
Trapped in the spell of a nightmare
War & peace
You're walking just straight on the edge
War & peace
You're dying in war
But you even can't live in peace
The essence of all evil
Is living on madness and hate
So see and take over
To rule the key to your fate
They fall one by one
Their blood is shed without sense
Trapped in the spell of a nightmare
War & peace
You're walking just straight on the edge
War & peace
You're dying in war
But you even can't live in peace
