

## War & Peace

Running Wild

The rifles are firing  
The cracking of guns break the still  
The march of the soldiers, no mercy  
No thoughts and no will  
They fall one by one  
Their blood is shed without sense  
Trapped in the spell of a nightmare  
War & peace  
You're walking just straight on the edge  
War & peace  
You're dying in war  
But you even can't live in peace  
You gun down your victim  
And the devil is laughing in scorn  
You're killing your brother  
Cause he's wearing the wrong uniform  
They fall one by one  
Their blood is shed without sense  
Trapped in the spell of a nightmare  
War & peace  
You're walking just straight on the edge  
War & peace  
You're dying in war  
But you even can't live in peace  
The essence of all evil  
Is living on madness and hate  
So see and take over  
To rule the key to your fate  
They fall one by one  
Their blood is shed without sense  
Trapped in the spell of a nightmare  
War & peace  
You're walking just straight on the edge  
War & peace  
You're dying in war  
But you even can't live in peace
