Wild Animal

Running Wild

You say I'm boisterous and evil There's a demon in my eyes You say I'm praying to the dark prince 'The Lord of the Flies' Try hard to defame me, 'Cos your power doesn't work on me Your self-created blindness Turns your heart to stone before it ever starts to feel The youth is what I'm living The wildness what I pray I don't need no religion To lead me on my way I don't need politicians To tell me wrong or right Cos everything is transient And the treasury of life's so rich and it waits for me Like a wild animal I follow my heart like it beats Like a wild animal The mighty urge to be free to live the life I want Like a wild animal Wildness leads my way Like a wild animal As long as I follow my nature, I'll never go astray Living Follow your heart on its way Dying Deny your heart and you'll pay The church is praying moral They say this piece of gum it kills They build up funeral pyres They burn people for their thrills They falsified the Bible For the power and the gain I never fawn on liars The way they're gonna treat me if they wanna stab my back Like a wild animal I follow my heart like it beats Like a wild animal The mighty urge to be free to live the life I want Like a wild animal Wildness leads my way Like a wild animal As long as I follow my nature, I'll never go astray I'm a wild animal
