

## Things That Are

Runrig

She was the fairest  
And her eyes shone of blue  
I first fell in the autumn term  
There was nothing I could do  
School lovers swarmed  
Around the courtyard wall  
Then walked on up  
The rapture road aglow  
She kept me warm that winter  
And winter turned to spring  
We never looked round corners  
To the changes they could bring  
Her love was a dart  
And I swore she broke my heart  
The world would never turn  
The same again  
The things that are  
And things that never can be  
Are things that we must bare  
To share our destiny  
I saw her again last summer  
Where the hard rains fall  
The grass grew long around her feet  
Where the years took their toll  
She once meant the world to me  
But we by-passed destiny  
On the road not taken  
The road unknown  
(Chorus)  
She was the only one  
Eternity blindness could see  
Our moments are rush and gone  
All our pictures incomplete  
(Chorus)  
(Chorus)  
Oh, the things that are  
(Chorus)
