

## Falling

RuPaul

Feel me, falling (3 x)

I miss you baby  
Laying next to me  
no matter where I go  
you're the only thing I see  
just on look from you  
always make things right  
so, why did we say goodbye?  
I played foolish pride  
stayed right in the way  
I must've been out of my mind

Finally the day has come  
I realize you were the one  
I got a feeling that I can't deny  
I falling in love again

I can't ignore and won't even try  
I'm falling in love again  
Falling again

Feel me, falling (2 x)

I thought I get over you  
But I wasn't so smart  
This time I promise you  
I listen to my heart  
all I have to do was see you again  
To know I made a mistake  
Baby since like everything I did wrong to you  
Came back as heartache

Finally the day has come  
I realize you're still the one  
I got a feeling that I can't deny  
I falling in love again

I'm gonna tell it on the mountain high  
I'm falling in love again

Fell me, falling (3x)
