Fed up with a stupid world! Where's my dummy gun? Shoot 'em up, bang bang I say we forget the noise! Take 'em one by one Get it done, hey hey

High society - Better when we're left alone
The hypocrisy - Saying that you will but you won't
The audacity - Tell us that our love is wrong
Get Your Rebel On
Stand up, light a fire up
Gotta fight to live how you wanna love
And raise your voices, sing a battle song
A revolution, Get Your Rebel On

Ooh ooh ooh ah, I'm gonna be there Ooh ooh ooh ah, Am I gonna see you tonight?

If you can dance, you can start a revolution Be a freedom fighter, synthesize a Boom Boom Use your body as weapon of mass destruction New York to L.A. devastate

(Love) be a rebel tonight
