

Help Our Unbelief

Rush Of Fools

Tragedies will come with darkest night
Right where we are and none can hide
But mercy is here
Mercy is here

Oh, my God why can't we see
That you have come to redeem Your children
Bring us home
My God don't let us be
But help our unbelief
Help our unbelief
Oh!

When longing seems to fade
And the pain cuts deep
Can we embrace
The dawning of that day
When mercy is here
Mercy is here

Oh, my
God why can't we see
That you have come to redeem Your children
Bring us home
My God don't let us be
But help our unbelief
Help our unbelief
Oh!

Tragedies are coming
Tragedies are coming
But mercy is here, oh
Mercy is here

Oh, my
God why can't we see
'cause you have come to redeem Your children
Bring us home
My God don't let us be
But help our unbelief
Help our unbelief [x3]
