

## No Other Love

Rush Of Fools

Here at Your feet  
Is never ending mercy  
Here at Your throne  
I'm never more unworthy  
You've called my name  
And I am still the one You've chosen

No other love  
Looks beyond the things I have done  
That I'm not proud of  
No other love  
Lifts me up and holds me in its arms  
And lives within my heart

Here at my fall  
You are still unchanging  
Here at Your cross  
You have come to save me  
And You've called my name  
And You alone I put my hope in

No other love  
Looks beyond the things I have done  
That I'm not proud of  
No other love  
Lifts me up and holds me in its arms  
And lives within my heart

My soul faints in You, Jesus  
My soul lives in You  
My soul longs for You, Jesus  
My soul lives for You

No other love  
Lifts me up and holds me in its arms  
And lives within my heart  
No other love  
Looks beyond the things I've done  
That I'm not proud of  
No other love  
Lifts me up and holds me in its arms  
And lives within my heart
