Driving away to the east, and into the past History recedes in my rear-view mirror Carried away on a wave of music down a desert road Memory humming at the heart of a factory town All my life I've been workin' them angels overtime Riding and driving and living So close to the edge Workin' them angels... Workin' them angels... Workin' them angels overtime Riding through the Range of Light to the wounded city Filling my spirit with the wildest wish to fly Taking the high road, taking that high road to the wounded city Memory strumming at the heart of a moving picture All this time I've been workin' them angels overtime Riding and diving and flying Just over the edge Workin' them angels... Workin' them angels... Workin' them angels overtime Driving down the razor's edge 'tween the past and the future Oh, turn up the music and smile Get carried away on the songs and stories of vanished times Memory drumming at the heart of an English winter Memories beating at the heart of an African village

All my life
I've been workin' them angels overtime
Riding and driving and living
So close to the edge
Workin' them angels... (workin' them angels...)
Workin' them angels... (workin' them angels...)
Workin' them angels overtime
Workin' them angels...
Workin' them angels...
