

I'll Follow The Night

Ruslana

Chorus

I'll follow the night
To wake up the day
To be with you,
You'll give me the light
I need on my way,
You'll do,
I'll follow the dream
We both have seen,
You know it's true,
I'll follow the light
To breakthrough the night
For you.

I'm all alone,
As the night is covering the sea,
Behind the storms
I am lonely, but I know I'm free.
An endless road fading down the hill ahead of me,
It makes me strong,
It shows the way to where I wanna be.

Chorus

You'll take my hand,
'Cause the road will bring me back to you,
You'll understand everything I wanna say or do.
It just takes time,
We remember where we wanna be,
You will be mine,
You will tell me, that you stay with me.
