

New Energy Generation

Ruslana

Rollercoaster ride
Faster then a plane -
We're going
Right above the sky,
We take off and fly -
We're falling,
Down with the rain,
And then up again -
We're rolling,
New energy generation

Chorus
Will find its own way up,
Will find its own way up,
Will find its own way up,
Will find its own way up.

We are coming up
To wake up the world,
We're running
Right above the dreams,
Crazy but it seems,
We're falling
Down to street,
Where we all will meet
To go up,
New energy generation

Chorus
