

## This Love Is Strong

Russ Taff

Sometimes the questions  
Seem so hard  
Are we growing together  
Or falling apart  
The ghosts of the past  
Have infected our dreams  
What's the damage, what's the cost  
Are we destined to repeat  
I remember at the start of it  
Our hopes were still new  
Our eyes were wide with innocence  
Our hearts were strong and true  
We trembled as we fought to keep our  
First love alive  
When did things get out of hand  
How do we survive  
This love is strong, it will last  
It will hold you up when you need it  
It will not break, I won't give up  
It costs too much and I need you  
We circle like opponents  
Sparring with the blame  
You hold your heart so tightly  
To shield you from more pain  
But even now sometimes I see  
Unguarded in your eyes  
That fragile hope that love can win  
The willingness to try  
It's such a complicated thing, it's not easy  
I'm here for you, when you need me  
We'll fight to hold the ground we've won, please don't surrende  
r  
We're not in this alone  
No no  
I know we can make it  
Keep holding on to our love
