

# Conquer The World

Russian Red

We, we were so young  
But life is a murderer  
We stayed very long  
But light is a vanishing hope

I had in mind  
To conquer the world by your side

Conducts very strange lately  
Cause heaven's in danger for you and the rest  
It's all true if we die I lose.

I had in mind  
To conquer the world by your side  
I had in mind  
To conquer the world by your side  
I had in mind  
To conquer the world by your side
