

Blue Diamonds

Rusted Root

We go out on the world tonight
With our blue diamonds
That were once our fears pressin' down on the town.
We go out my love
Holdin' all our bets.
Oh my lady resurrect this breath
On this hour of the night.
We'll make it love, we'll make it love.

'Cause I found you now.
And forever I won't waste this breath.
The time be by our side.
It's now or never,
I won't waste this breath.

Now don't you wait, I feel it in my head
Oh my lady, you're the woman I search
To roam my heart, roam my heart this way
Heeeey

'Cause I found you now.
And forever I won't waste this breath.
The time be by our side.
It's now or never,
I won't waste this breath.

I remember a time
A little less tame.
You roam my heart
Ooon this way, this way.

We go out on the world tonight
With our blue diamonds
That were once our fears pressin' down on the town.
We go out my love
Holdin' all our bets.
Oh my lady resurrect this breath
On this hour of the night.
We'll make it love, we'll make it love.

'Cause I found you now.
And forever I won't waste this breath.
The time be by our side.
It's now or never,
I won't waste this breath.
