Cut The Cord

Empty buildings But they keep building Concrete cold feet We forgot so much we used to know Cuz it there's no room to grow we'll all explode Everybody's talking shit You get used to it We float on and on and on And everybody's feeling bored just cut the cord That's dragging you on and on Stuck in the middle of people There ain't no way around it Like if you hole up inside you'll stay warm and dry No no no no
