

## What If

RX Bandits

What if I told you  
That you're a lovely gal  
And I'd adore you  
If you'd just show me how- right now  
What if I told you  
Things that I have inside  
Shoulder to cry on  
Someone that I confide- right now

I can't see  
The life that's left in front of me  
So drop me off  
I can't do  
The things that I was meant to  
Just drop me in

What if I told you  
That you're a stupid whore  
And I want nothing  
Your life is such a bore to me  
What if I told you  
I speak with honesty  
You said yourself, girl  
Best things in life are free  
Right now, right away

I can't see  
The life that's left in front of me  
So drop me off  
I can't do  
The things that I was meant to  
Just drop me in

Never better, never worse  
Never better, never worse  
Never better, never worse  
Never better, never worse
