No more books and studies And I can stay out late with my buddies I can do the things that I wanna do 'Cause all my cares are through I can root for the Yankees from the bleachers And don't have to worry 'bout teachers And I'm so glad that school is out Well, I'm gonna sing and shout!

(School is out) Everybody's gonna have some fun (School is out) Everybody's gonna jump and run (School is out) Come on, people, don't you be late (School is out) I just got time to take my girl out on a date School is out at last And I'm so glad I passed Everybody come and go with me We're gonna have a night with Daddy
