

# Trouble, You Can't Fool Me

Ry Cooder

Trouble you can't fool me I see you behind that tree  
Trouble you can't fool me trying to get the ups on me  
Trouble you can't fool me I see you behind that tree  
You want to jump on me

Work hard for living, wanted just to get paid  
But, sure'd be stealing for a year and a day  
Would like to see a little sunshine, just to guide my way  
Would like to have a little peace of mind  
That's why I wanna say you better look out!

Trouble you can't fool me I see you behind that tree  
Look out! trouble you can't fool me trying to get the ups on me  
Trouble you can't fool me I see you behind that tree  
You want to jump on me

Trouble taught me a lesson I never never will forget  
Now, he took my love, she ain't paid it back yet  
I had to find another just to take her place  
And I sure do love her, I said we're doing ok

So look out!  
Trouble you can't fool me I see you behind that tree  
Look out! trouble you can't fool me trying to get the ups on me  
Trouble you can't fool me I see you behind that tree  
You want to jump on me

Well, you know, everyday can't be Sunday (that's right!)  
It's a funny thing, it seem just before daylight is your darkest hour  
And you know one thing (what's that ?)  
Behind every silver lining, there isn't a dark cloud  
(and you just ain't got time to go 'round subtracting  
And adding 'cause you'll just be too late]  
You know one thing ? (what's that ?)  
Every time you get around a tree, you better stop and grab a brick (w  
hy ?)  
Old man trouble, laying and waiting on you

That's what I wanna say,  
Trouble you can't fool me I see you behind that tree  
Look out! trouble you can't fool me trying to get the ups on me  
Trouble you can't fool me I see you behind that tree  
You want to jump on me

Trouble took my money, Cadillac's gone  
Best suit of clothes, all raised up in the closet, oh lord  
But I'm so glad  
Trouble don't last, always  
You can't fool me
