

Born into a Light

Ryan Adams

For everything that's wrong
There is a worried man
There is a reason why
We just don't understand but will
You got to keep the faith

Be patient, oh the past
Is just a memory and heal
Heal your vines
You'll heal inside eventually

We were born into a light
We were born on light
We were born into a light

For everyone alone
I wish you faith and hope
And all the strength to cope
To be your own best friend
Have confidence and keep the faith

Be patient, oh the past
Is just a memory and heal
Heal your vines
You'll heal inside eventually

We were born into a light
We were born into a light
We were born on light
We were born into a light

The lights, the lights
The lights, yonder lights
