

Closer When She Goes

Ryan Adams

If I take a walk
I know I'm going to see her -- my old lady
Cross the street to her car
I'm feeling pretty blue today -- a little shaky
She visits then she comes to stay
She's closer when she goes
But causing so much pain
A universe that closed
I sleep her off for days

Someday when the moon
It learns to let the night call me into her
I won't hear the tunes
Manipulated notes, I should of sung her
She visits then she comes to stay
She's closer when she goes
And causes so much pain
A universe of that closed
I sleep her off for days
She's closer when she goes
And causing so much pain
A universe of that closed
