

# Never Far Behind

Ryan Bingham

One day I thought I would be just like you  
I know now that you were never satisfied  
Now that I'm grown I am nothing like you  
I see the world with my own eyes  
With so much love all around you  
How could you never realize?  
The ground above, the sky below you  
Must beat the hell out of being alive

How many times can I forgive you?  
If you are always on my mind  
I've tried so hard to outrun you  
You are never far behind

I never thought I would use you  
Where you have gone I will not find  
I know the ? cannot contend you  
I feel all lost as time goes by  
With so much love all around you  
How could you never realize?  
The ground above, the sky below you  
Must beat the hell out of being alive

How many times can I forgive you?  
If you are always on my mind  
I've tried so hard to outrun you  
You are never far behind

How many times can I forgive you?  
If you are always on my mind  
I've tried so hard to outrun you  
You are never far behind
